MISSIONARIES TO BRAZIL

October - November 2018

Dear Fellow Laborer in Christ,

What a great two months we had while traveling and presenting our ministry. The Lord has blessed and taken care of our family in unexpected ways. Thank you for your constant prayer and support. These past two months we were able to share our burden of Brazil in Texas, New Mexico, and California.

While attending a missions' conference in Albuquerque, NM, I was able to meet a young man named Josh. He was on his way to get a haircut when we met him, but he took the time to stop and hear the great news of our Savior. Josh was excited to receive Christ as his Savior and said he will try to attend services sometime soon. During one of our missions' conferences I was able to preach about God's timing and planning. After the service a man came and began to share his personal burden and how the sermon was an encouragement to him to stay faithful and wait on God. It was a blessing to see God use our family now, even before we get to the field. We hope to always be surrendered to His calling so He can use us when He needs us.

While in Texas I had an opportunity to preach in our sending church's Baptist Academy. When I was sixteen years old going to the same academy, the Lord worked on my heart to surrender to be a missionary. I was excited to be able to encourage and challenge the students to surrender their all to Jesus.

We were also able to spend Thanksgiving with both our families. I cannot begin to explain how grateful I am for that time we had fellowshiping and giving thanks to our God.

An exciting update on Brazil! Recently Brazil held their elections, and for the first time in nearly thirty years they have elected a conservative president! President elect Jair Bolsonaro is known as the "Trump of the Tropics." Much like our President, he is hated by the liberal media but stands for Christian morals and values. In a country filled with corrupt government officials, poverty, and legal prostitution, Brazil needs more of Christ. God is moving in Brazil and opening doors for Christians and the Baptist Church. Please pray for President elect Bolsonaro as he takes office in January. He has already been stabbed once in an attempt to take his life.

One of our greatest needs right now is to get out of our home. We currently own a home in Texas, and it has proven to be a burden on our family as we try to travel and care for the home. Because of a \$17,000 plumbing problem, we are having a difficult time selling the home. Please pray God will guide and provide so we can get out of the home and stay on the road full time.

Sincerely,

The Butler Family
